

Stainless Steel Welded Wire Mesh

Stainless steel welded wire mesh is durable and strong, the material wire is rust resistant, corrosion resistant and also anti-chemicals, which could be exposed to corrosion for a long time. Because of its natural properties, **stainless steel welded wire mesh** need no additional finish procedures to protect it.

Material: **stainless steel welded wire mesh** is usually made of mild steel, bright annealed mild steel, galvanized steel and stainless steel wires.

Features: Compared with other wire meshes, **stainless steel welded mesh** has many good properties, such as strong structure, anti-corrosion and anti-rust, it is not easy to loosen even be cut into parts or exerted force on the parts.

Application: **stainless steel welded wire mesh** could be widely used in fishery industry, food drying, marine use, rodent proofing, cages for animals, decoration and so on.

Specification:

Roll Width: 24inch, 36inch, 1metre, 48inch, or 72inch.

Roll Length: 100 feet or 150 feet.

Note: other roll width or roll length can be made according to request.
