

Welded Wire Mesh Panels

Stainless Steel Welded Mesh Panels

Sunshine [Stainless Steel Welded Mesh Panels](#) offer excellent characteristics such as corrosion resistance, oxidation resistance, acid resistance, alkali resistance, aging resistance, sunshine resistance and weather resistance. Besides this kind of product has flat even surface and strong structure, therefore this product has a long service life...

Galvanized Welded Mesh Panels

Anping Sunshine Metal Product Factory can offer four types of [galvanized welded mesh panels](#), including welded before galvanized, welded after galvanized, welded before hot-dip galvanized and welded after hot-dip galvanized...

PVC Coated Welded Mesh Panels

[PVC Coated Welded Wire Mesh](#) is made of high quality of welded galvanized iron wire mesh, to be coated with PVC powder by advanced automatic equipments. Sunshine PVC Coated Welded Mesh Panel can be divided into two types including dipping plastic and plastic spraying...

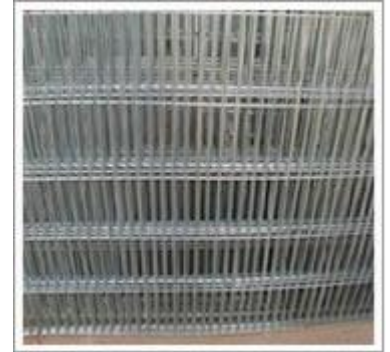

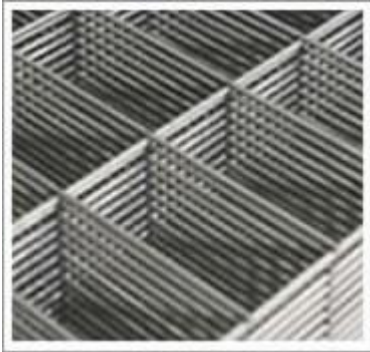

Stainless Steel Welded Mesh Panels

Wire Materials:

The main material of [stainless steel welded mesh panels](#) are mild steel wire and stainless steel wire.

Characteristics:

Sunshine [Stainless Steel Welded Mesh Panels](#) offer excellent characteristics such as corrosion resistance, oxidation resistance, acid resistance, alkali resistance, aging resistance, sunshine resistance and weather resistance. Besides this kind of product has flat even surface and strong structure, therefore this product has a long service life. Good material life of up to several decades

Stainless Steel Welded Mesh Panels Stainless Steel Welded Mesh Panels Stainless Steel Welded Mesh Panels

Applications:

Sunshine Stainless Steel Welded Mesh Panel with excellent corrosion resistance and oxidation resistance, is extensively used as fencing, decoration and machinery protection material in agriculture, construction, transport, mine, sports field, lawn and various industrial fields.

For example:

Food Bracket

Shopping Shelf

Specifications:

Mesh Size		Wire Diameter	Panel Width & length
In MM	In Inch	MM	
12.7mm	1/2''X1/2''	1.0mm - 2.0mm	3Feet x 6Feet 4Feet x 8Feet 5Feet x 10Feet 1M X 2M 1.5M X 3M
25.4mm	1''X1''	1.5mm - 3.5mm	
38.1mm	1 1/2''X1 1/2''	2.0mm - 5.0mm	
50.8mm	2''X2''	2.0mm - 6.0mm

76.2mm	3''X3''	3.0mm - 7.0mm	2M X 4M Other panel sizes can also be made according to request
101.6mm	4''X4''	3.0mm - 8.0mm	
127mm	5''X5''	4.0mm - 9.0mm	
152.4mm	6''X6''	4.0mm - 10.0mm	

Galvanized Welded Mesh Panels

Anping Sunshine Metal Product Factory can offer four types of galvanized welded mesh panels, including welded before galvanized, welded after galvanized, welded before hot-dip galvanized and welded after hot-dip galvanized

Characteristics:

Galvanized Welded Mesh Panels offer excellent characteristics such as corrosion resistance, oxidation resistance, acid resistance, alkali resistance, aging resistance, sunshine resistance and weather resistance. Besides this kind of product has flat even surface and strong structure, therefore this product has a long service life.

Applications:

Sunshine **Galvanized Welded Mesh Panels** with excellent corrosion resistance and oxidation resistance, is extensively used as fencing for buildings and factories, as animal enclosure and fence in agriculture and other uses.

Moreover this kind of product is also used in construction, transport, mine, sports field, lawn and various industrial fields.

For example:

Assortments Available:

Stainless Steel Welded Mesh Panels

PVC Welded Mesh Panels

Package:

In pallets or In bulk. Special package according to customer's request.

Specifications:

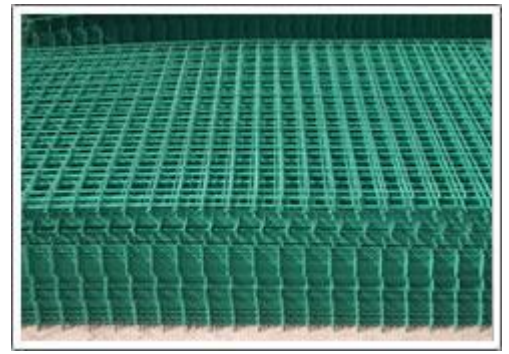

Common Specification				
Hole Size	Dia of wire	Width	Length	Weight
50X50mm	3.5mm	0.5m-2.4m	1.0m—4.0m	
50X100mm	3.5mm			
100X200mm	3.5mm			
50X75mm	4.0mm			
100X100mm	4.0mm			
50X180mm	4.5mm			
150X150mm	4.5mm			
200X200mm	5.0mm			
100X200mm	5.0mm			

The form of hole can be divided into rectangle and square. Hole size, dia of wire, length and width according

to the customer' need to design and produce.

PVC Coated Welded Mesh Panels

PVC Coated Welded Wire Mesh is made of high quality of welded galvanized iron wire mesh, to be coated with PVC powder by advanced automatic equipments. Sunshine PVC Coated Welded Mesh Panel can be divided into two types including dipping plastic and plastic spraying.

Wire Materials:

Materials: With PVC coating, anti-violet and anti-aging auxiliary agent can be added in the coating materials.

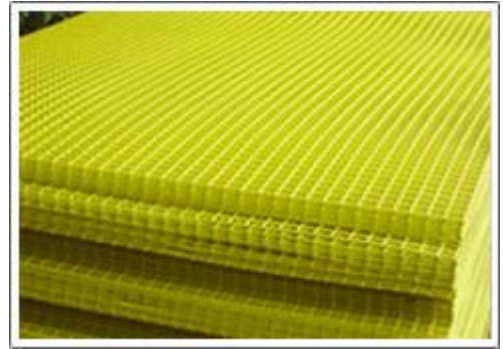

Characteristics:

PVC Coated Welded Mesh Panels offer excellent characteristics such as corrosion resistance, oxidation resistance acid resistance, alkali resistance, aging resistance, sunshine resistance and weather resistance. Besides this kind of product has flat even surface and strong structure, therefore this product has a long service life. Moreover the coated layer is even, strong adhesiveness and bright luster.

Applications:

Sunshine PVC Coated Welded Mesh Panel with excellent characteristics is extensively used in the construction of chain link fences for industrial security fences, freeways and tennis courts. It is also used in other applications such as coat hangers and handles. Suitable for houses and properties, companies, gardens recreation area sparks.

For example:

Specifications:

PVC Coated Welded Wire Mesh Panels				
Wire Gauge (swg)	Opening (Inch)	Length (M)	Width (M)	Weight (kg)
8	4.06	2	4	4.25
9	3.65	2	4	3.45
10	3.25	2	4	2.74
11	2.95	2	4	2.25
12	2.65	2	3	1.80
13	2.34	2	3	1.40
14	2.03	2	3	1.08
